Construction of Academic Complex at Rwanda Military Academy (RMA-GAKO)

Guarantee document for solar water heater

WOVS Solar water heater, produced by WOVS, have a warranty of 3(Three) years from the date of purchase from factory, distributed by Haldi group Rwanda, and AVIC JV JWHC will give extra 7(years) of guarantee of maintenance for above product, if the purchase was conducted according to the below mentioned conditions:

1. This guarantee document for WOVS solar water is only valid for the first use of the product. If the product are open or dismantling and assemble or repair without permission of the factory/distributor/AVIC JV JWHC, the guarantee will not be valid.
2. If solar water heater nonworking occurs as a result of natural disasters (waterspout, earthquake, storm, hail-stone) or war, military occupation, invasion, revolt, public demonstrations, nuclear explosions and radiation, radioactive pollution, gases and fumes caused by corrosive material, this guarantee will not be valid.
3. The beneficiary of the guarantee is the owner of the building where the system has been used.
4. This guarantee is only valid if the applications have been applied in accordance with the instructions and rules prepared by the factory (direction, supporting structure, angle.....), the man-made damage or wrong operation will not be suitable for the guarantee, it will be the extra maintenance.
5. If the WOVS are used and operated according to the above mentioned conditions and found not working properly, this guarantee document together with the report have to be delivered back so that factory/distributor/AVIC JV JWHC changes/repair the defective parts of system. This guarantee is only valid for the change/repair the defective parts caused by product, extra maintenance will consider costs for materials and other relative fees (transportation labor and other which is necessary).

Any request of the beneficiary of this guarantee document has to be placed according to the below mentioned articles

1. The owner of the guarantee document has to inform factory/distributor/AVIC JV JWHC immediately if any defect is discovered on the system and show the guarantee document to the distributor/AVIC JV JWHC, where the products are used. If the above mentioned conditions have occurred, the distributor/AVIC JV JWHC will change/repair the defective parts caused by product.
2. The man-made damage or wrong operation will be extra maintenance, the distributor/AVIC JV JWHC can repair within the guarantee period with repair costs including but not limit to materials, transportation, labour.

Compact Pressurized Solar Water Heater With Copper Coil

Copper Coil

Specifications

- Inner Tank: SUS304-2B(food grade) Stainless Steel
- Outer Tank: Galvanized Steel
- Insulation Layer: Polyurethane Foaming
- Bracket: Galvanized Steel
- Heat Pipe Vacuum Tube: 3-Target Vacuum Tube with AlN AlN-SS-CU coating and Copper Pipe inside
- Size: $\Phi 58 \times 1800 \text{mm}$
- Tube Number: 15,18,20,24,30pcs
- System Capacity: 150~300L
- Optional Accessories: Electric Heater, Controller, Magnesium Anode, Reflector and so on.
